The Company Rafajlovski Consulting & Audit was founded and developed under the guidance of Mrs. Vera Rafajlovska and Mr. Goran Rafajlovski.

In its 25 years of existence, the company proved itself as a serious leader on Macedonian market in the area of consulting. The constant modern appearance is based on the enormous potential and desire for change and improvement by following the latest world trends. Being adaptable to market conditions, Rafajlovski Consulting & Audit shows remarkable results and is a real brand.

The company’s social responsibility is a result of the full work capacity that the founders put in every business activity.

The company’s educational capacities represent real basis for development of thousands accountants and auditors in the Republic of Macedonia and raising the profession to the highest level.
Professional team
That understands the company’s operation. Understands and answers
the challenges the company is facing. Possesses independence and ob-
jectivity. The team of Rafajlovski Consulting & Audit has the necessary
level of experience to provide consultancy for projects in the area of ac-
counting and taxes. The team’s work is based on the leading expertise of
its members, acquired in the course of preparation and/or assistance in
preparation of different projects in the Republic of Macedonia.

Effective approach in preparation of operations
Where we focus on the key issues. The accounting records will be es-
tablished after the insight in the accounting policies and accounting rule-
books as a group, or after we are acquainted with the given guidelines for
operation.

Methodology
Methodology which will the optimal level of client’s requirements regard-
ing the execution or assistance in execution of the project.

Openness of the team towards the company during
representation and consulting
Our approach includes communication with the company’s management
on a regular basis and providing proper experts for every stage of the
project activity, as agreed by signing a contract for provision of services.
The purpose of this type of mutual collaboration and regular communica-
tion is to secure most efficient performance and avoid any surprises and
thus recognize all the important issues as they arise, as well as provide
time limit for their resolution in the most adequate way.
